

Robert W. Johnson

Attorney at Law

JOHNSON / JENSEN, LLP

One Indiana Square, Suite 1640

Indianapolis, IN 46204

I met Cynthia through another medical malpractice lawyer I know. Initially, I was impressed by her qualifications. Her experience and training is significant and shows in her work. In working with Cynthia, my experience can be described as professional and efficient. Cynthia has been able to explain complicated medical evidence to me in plain language and give me examples from her own personal experience. She has demonstrated knowledge of how hospital, operating rooms, recovery rooms and how the staff working in these areas are expected to provide health care. Her knowledge regarding policies and procedures has proved invaluable. Cynthia is also skilled in drafting specific discovery requests in order to pin down the facts of the case. In short, my working experience has been excellent. I recommend her to any medical malpractice attorney who is in need of a highly trained and experience legal nurse consultant.
